

# ASSEMBLY INSTRUCTIONS

Always ensure the cubicle is clean and dry before packing. There may be occasions when you have to pack the cubicle wet or dirty. This is ok for traveling as long as the cubicle is not left packed in this condition for any longer than 24 hours. Any moisture or dirt left in the cubicle will cause mildew to develop very quickly causing permanent damage to your cubicle.

NOTE: ALWAYS SELECT A CLEAR AND LEVEL CAMP SITE TO SET UP YOUR CUBICLE, ENSURE IT IS CLEAR FROM TREES, STICKS AND SHARP ROCKS.
